

DID YOU
KNOW?

Reclamation Fill Management

H&K Group, Inc. (H&K) is dedicated to preserving our environment and conserving natural resources. Through our Reclamation Fill Management Services, we reuse soils and associated fill materials for the redevelopment and/or reclamation of our existing surface mining operations. Each of our approved Reclamation Fill Management locations has in-house experts who are well-versed in the necessary criteria and compliance standards to ensure each load meets state requirements.

Our Reclamation Fill Management Services include:

■ **Reclamation Fill Placement & Support**

Reclamation Fill is defined as uncontaminated, non-water soluble, non-decomposable inert solid material. This material typically includes soil, rock, gravel, brick, block, concrete and incidental asphalt. Pre-approval is required prior to delivery.
