

DID YOU KNOW?

Environmental

H&K Group, Inc. (H&K) is committed to conducting our business in the most environmentally responsible manner possible, from general permitting to ensuring that air, surface water, and groundwater compliance is achieved and maintained at every H&K surface mine or materials facility. Our skilled Engineering & Environmental Service Division staff of engineers, geologists and scientists is dedicated to upholding the environmental stewardship ideals and traditions of H&K.

Our Environmental Services include:

- Spill Response
- Spill Prevention Control
- Site Characterization
- Environmental Remediation
- Geoprobe Services
- Mine Permitting & Compliance
- **& MORE**

H&K understands today's construction and mining industries are increasingly challenged with continually evolving environmental constraints. With comprehensive knowledge of the permitting process and planning with environmental prudence, our team is able to minimize construction costs while maintaining and protecting the surrounding natural resources.
