Ira Vosper, General Manager

Rinox Pavers, LLC

DOUGLASSVILLE, PA's RINOX FACILITY SETTING SIGHTS ON STRONG 2006 PRODUCTION YEAR

RINOX is extremely proud to enter their first full spring production season since breaking ground on their state-of-the-art Douglassville, PA manufacturing facility in late 2004. Easily recognizable from Benjamin Franklin Highway by its large blue RINOX Rhino logo, this 35,000 square foot facility is the first facility of its kind in the United States to produce RINOX's "tumbled" concrete pavers and retaining wall units. RINOX, a Canadian-based company, presently operates two other manufacturing facilities of this kind in Canada. Rinox Pavers, LLC is a trusted member of The H&K Group™ family of companies.

Located on Quarry Road in Douglass Township's new Trap Rock Business Center complex, RINOX is a leading manufacturer of concrete paving stones, retaining walls and masonry products. RINOX currently distributes to retailers up and down the east coast from their Douglassville manufacturing location. RINOX's Douglassville facility will utilize raw materials from Reading Materials Inc.'s adjacent Douglassville Quarry to produce the highest quality hardscaping products available in the industry.

RINOX has enjoyed rapid growth and overwhelming acceptance into the concrete paving stone marketplace leading up to its Douglassville, PA expansion project. Currently there are over 45 people employed at the Douglassville location alone, and the number is expected to grow according to Ira Vosper (General Manager of RINOX). "Douglassville was an excellent choice for RINOX for both the proximity to the natural resources and ability to distribute to our customer base" said Vosper.

Additional information on RINOX, their complete line of hardscape and architectural products, or their new Douglassville, PA manufacturing facility may be obtained by calling 1-866-99-RINOX or visiting www.rinoxpavers.com.
